

VALLEY DEALER
WORKBOOK
2017

étain

Our Flagship expedition-style kayak. Fast, straight tracking but still with that hint of playfulness, all our kayakers are famous for. The longer waterline, of the Etain, ensures that performance is maintained and that handling remains predictable, even when loaded.

Design Highlights

- Larger Cockpit and Seat in the 17-7, enabling larger framed paddlers to enjoy a performance expedition type kayak.
- Features the new continuity of paddler “fit” between key models. This makes it easier to find the right model/size for any given paddler, increasing the likeliness of closing a sale.
- The Etain continues to be our best-selling “Full Size/Expedition Type” Kayak

Specifications

Model	Length	Width	Depth	Rec Paddler Weight
Etain 17-7	17'7" /	21.5" /	13.25" /	198-297lbs / 90-135kg
	536cm	54.5cm	33.5cm	
Etain 17-5	17'5" /	21.25" /	12.75" /	143-220lbs / 65-100kg
	531cm	54cm	32.5cm	
Etain 17-1	17'1" /	21" /	12" /	88-154lbs / 40-70kg
	521cm	53.5cm	30cm	

étain_{RM}

Our Flagship expedition-style kayak. Fast, straight tracking but still with that hint of playfulness, all our kayakers are famous for. The longer waterline, of the Etain, ensures that performance is maintained and that handling remains predictable, even when loaded. his model.

Design Highlights

- Features the new continuity of paddler “fit” between key models. This makes it easier to find the right model/size for any given paddler, increasing the likeliness of closing a sale.
- The Etain RM now features the “4th Deck Hatch” in place of the original pod, giving continuity across the Sirona and Etain ranges

Specifications

Model	Length	Width	Depth	Rec Paddler Weight
Etain 17-7	17'7" /	21.5" /	13.25" /	198-297lbs / 90-135kg
	536cm	54.5cm	33.5cm	
Etain 17-5	17'5" /	21.25" /	12.75" /	143-220lbs / 65-100kg
	531cm	54cm	32.5cm	

Sirona

Replacing a kayak, with a reputation as strong as the Avocet, would require something special. Launched in 2016 this design has already proved up to the challenge. Short and with sufficient rocker, to be considered an Ocean playboat but with a waterline long enough to hold it's speed, even when moderately laden. True, it is not ideal for multi-week expeditions but it is certainly very suitable for most people, with shorter tripping ambitions

Design Highlights

- Launched in 2016
- Combines the best characteristics of Valley's previous Avocet & Pintail models. This gives the Surf/Ocean play performance or the Pintail, with the speed and tracking of the Avocet
- Features the continuity of paddler "fit" between key models. This makes it easier to find the right model/size for any given paddler, increasing the likeliness of closing a sale.

Specifications

Model	Length	Width	Depth	Rec Paddler Weight
Sirona 16-3	16'3" / 495cm	22.75" / 58cm	13.25" / 33.5cm	198-297lbs / 90-135kg
Sirona 16-1	16'1" / 490cm	22" / 56cm	12.75" / 32.5cm	143-220lbs / 65-100kg
Sirona 15-10	15'10" / 483cm	20.75" / 53cm	12" / 30cm	88-154lbs / 40-70kg

Sirona RM

Replacing a kayak, with a reputation as strong as the Avocet, would require something special. Launched in 2016 the RM was originally only available in the 16-1 size. For 2017 we've added the popular 15-10 size, so now smaller paddlers can enjoy this great, versatile sea kayak

Design Highlights

- Launched in 2016
- Combines the best characteristics of Valley's previous Avocet & Pintail models. This gives the Surf/Ocean play performance or the Pintail, with the speed and tracking of the Avocet
- Features the continuity of paddler "fit" between key models. This makes it easier to find the right model/size for any given paddler, increasing the likeliness of closing a sale.

Specifications

Model	Length	Width	Depth	Rec Paddler Weight
Sirona 16-1	16'1" / 490cm	22" / 56cm	12.75" / 32.5cm	143-220lbs / 65-100kg
Sirona 15-10	15'10" / 483cm	20.75" / 53cm	12" / 30cm	88-154lbs / 40-70kg

GEMINI_{SP}

Gemini SP (Sports Play) – The Sporty Twin! This version makes best use of it's modest length (14'10"/452cm) which combined with, increased rocker and more bow volume makes this our best rock-hopping/surf/rough water kayak.

Design Highlights

- Our shortest most aggressive ocean "play" kayak
- Versatile enough to use for any sea kayaking purpose

Specifications

Model	Length	Width	Depth	Rec Paddler Weight
Gemini SP	14'10" / 452cm	22" / 56cm	12.76" / 32.5cm	143-220lbs / 65-100kg

GEMINI_{ST}

Gemini ST (Sports Touring) - As fast as many 16' kayaks, because the design is tuned the opposite way i.e. finer bow, to piece the water, reduced rocker, to maximize the waterline length. The ST is ideal for those who generally paddle in less challenging conditions, whilst its reduced weight makes it easier to handle on and off the water.

Design Highlights

- As fast as many 16ft kayaks
- Reduced size and weight make it easier to manage on or off the water

Specifications

Model	Length	Width	Depth	Rec Paddler Weight
Gemini ST	14'10" / 452cm	1.25" / 54cm	12.75" / 31.72cm	143-220lbs / 65-100kg

GEMINI_{SP} RM

Gemini SP (Sports Play) – The Sporty Twin! This version makes best use of it's modest length (14'10"/452cm) which combined with, increased rocker and more bow volume makes this our best rock-hopping/surf/rough water kayak.

Design Highlights

- Our shortest most aggressive ocean "play" kayak
- Versatile enough to use for any sea kayaking purpose

Specifications

Model	Length	Width	Depth	Rec Paddler Weight
Gemini SP RM	14'10" / 452cm	22" / 56cm	12.75" / 32.5cm	143-220lbs / 65-100kg

Nordkapp *førti*

This most recent version of the Nordkapp, actually has a hull design, more closely matched to the original, than many of the versions produced in recent years. This back to the future, some would say, 'retro' design, gives a kayaks capable of expeditioning and ocean play, in equal measure. The only downside... You'll need to be a good paddler to get the most out of it!

Design Highlights

- Successfully recaptures the spirit of the original design
- Legendary rough water handling
- Can still hold its own, even amongst the newest designs

Specifications

Model	Length	Width	Depth	Rec Paddler Weight
Nordkapp forti	17' 10" / 545cm	21" / 53cm	12.5" / 31.75cm	143-220lbs / 65-100kg

Specialised Models

Anas Acuta - The closest experience to paddling a genuine Greenland Kayak.

If you are looking for the closest experience to paddling a genuine Greenland kayak, then look no further than the Anas Acuta. A thousand years of evolution led to this design. When people say 'traditional' sea kayak, this is what most people think of. Available with a keyhole cockpit or on special request an ocean cockpit for real authenticity.

Specifications

Model	Length	Width	Depth	Rec Paddler Weight
Anas Acuta	17'2" / 547CM	20" / 21CM	11.5" / 29CM	143-220lbs / 65-100kg

Rapier - The ultimate fitness-orientated sea kayak

If you are after a real open water speed machine, then look no further than the Rapier Series. The Rapier 18 was conceived to fully comply with the United States Canoe Association sea kayak rules whilst the Rapier 20 held the Guinness World Record for crossing the English Channel as well as winning Britain's toughest adventure race in the Outer Hebrides off the West coast of Scotland. Need we say more for the potential of the Rapier Series. Available in 20 and 18.

Specifications

Model	Length	Width	Depth	Rec Paddler Weight
Rapier 20	20' / 670cm	26" / 66cm	14" / 36cm	N/A
Rapier 18	17'1" / 547cm	21.5" / 55cm	15" / 38cm	N/A

Aleut II - Regarded as one of the best ever rough-water expedition doubles

The Aleut II is regarded as one of the best ever rough-water capable expedition doubles worldwide. The combination of speed, secure handling and ample storage capacity make it suitable for almost any purpose. Why settle for anything less than the class leading Aleut II.

Specifications
